

**REPORT OF THE VIRTUAL MEETING OF THE OIE AD HOC GROUP ON THE EVALUATION
OF CLASSICAL SWINE FEVER STATUS OF MEMBERS
26 and 28 October 2021**

A virtual meeting of the OIE *ad hoc* Group on the Evaluation of Classical swine fever (CSF) Status of Members (hereafter the Group) was held from on 26 and 28 October 2021.

1. Opening

Dr Montserrat Arroyo, Deputy Director General for International Standards and Sciences of the OIE, welcomed the Group. She thanked the experts for their availability and contribution to the work of the OIE and extended her appreciation to their international organisations, institutes and national governments for allowing their participation in this meeting. Dr Arroyo acknowledged the amount of work before, during and that would be done after the *ad hoc* Group meeting in reviewing the dossiers and writing the report. Dr Arroyo thanked the Group for its commitment and support to the OIE in fulfilling the mandates given by Members.

Dr Arroyo highlighted the importance of the quality of the report to be scrutinised by Members before adopting the proposed list of countries free from CSF. She also encouraged the Group to continue providing detailed feedback to Members with a negative outcome to support them in identifying the main gaps and points for improvement to achieve their desired CSF free status, as well as providing informative recommendations to those Members with positive outcomes for further improvement in maintenance of their CSF free status.

Dr Arroyo highlighted the sensitivity and confidentiality of the dossiers received for official recognition and thanked the experts for having signed the updated forms for undertaking of confidentiality. She also mentioned that if any members of the Group had any conflict of interest in the evaluation of a dossier, the expert(s) should withdraw from the discussions and decision making of the particular application.

The experts and the OIE welcomed Drs Katsuhiko Fukai, Žilvinas Ilevičius and Weerapong Thanapongtharm as new members of the Group.

2. Adoption of the agenda and appointment of chairperson and rapporteur

The Group was chaired by Dr Mario Eduardo Peña Gonzalez. Dr Mary-Louise Penrith acted as rapporteur, with the support of the OIE Secretariat. The Group endorsed the proposed agenda.

The Terms of reference, agenda and list of participants are presented as Appendices I, II and III, respectively.

3. Evaluation of applications from Members for official recognition of a CSF free country status

The Group assessed a request from a Member for the official recognition of a CSF free country status. The Group concluded that the application did not meet the requirements of the *Terrestrial Code*. The dossier was referred back to the applicant Member.

4. Other matters

The Group noted that there is a lack of scientific evidence currently available to indicate that peccaries are playing a significant role in the epidemiology of CSF. Therefore, the Group recommended the OIE to review and amend the Technical Disease Card on CSF accordingly; the Group proposed text and provided the scientific references.

5. Adoption of report

The *ad hoc* Group reviewed and amended the draft report. The Group agreed that the report would be subject to a short period of circulation to the Group for comments and adoption. Upon circulation, the Group agreed that the report captured the discussions.

OF CLASSICAL SWINE FEVER STATUS OF MEMBERS
26 and 28 October 2021**

TERMS OF REFERENCE

Purpose

The purpose of the *ad hoc* Group on the evaluation of classical swine fever (CSF) status of Members (the Group) is to evaluate applications for official recognition of CSF status of Members.

Background

In accordance with the [OIE procedure for official recognition of animal health status](#), OIE Members can be officially recognised by the OIE as having a CSF free status through the adoption of a resolution by the World Assembly of Delegates of the OIE (the Assembly) in May every year. A Member wishing to apply for the official recognition of its CSF free status should complete and submit the [questionnaire](#) laid out in Chapter 1.9. of the OIE *Terrestrial Animal Health Code (Terrestrial Code)* and comply with all requirements specified in the *Terrestrial Code*. The OIE Scientific Commission for Animal Diseases ([Scientific Commission](#)) is responsible for undertaking, on behalf of the Assembly, the assessment of OIE Members' applications for their compliance with OIE standards. The assessment carried out by the Scientific Commission is based on the recommendations formulated by a relevant *ad hoc* Group. *Ad hoc* groups are convened under the authority of and report to the OIE Director General.

Specific issues to be addressed

The Group will evaluate Members' applications in detail on their compliance with the requirements specified in the *Terrestrial Code* for CSF. Based on the evaluations, the Group will provide its conclusions and recommendations to the Scientific Commission.

Prerequisites

The Group members should:

- Sign the OIE Undertaking on Confidentiality of information (if not done already);
- Complete the Declaration of Interest Form;
- Understand that the membership of the Group may be retained between its meetings to ensure continuity of the work.

Actions to deliverBefore the meeting

Upon reception of an application from a Member, the Status Department (SD) conducts a preliminary screening to check the conformity of the dossier (structure of the dossier in accordance with the SOP and with the questionnaire under Chapter 1.9. of the *Terrestrial Code*, main sections of the questionnaire, regular notification to the OIE, payment of the fee, OIE Performance of Veterinary Services (PVS) report, etc.). If an information gap is identified, the SD requests additional information from the Member.

As the PVS reports are bound by the OIE rules on confidentiality of information, the SD and experts will consider for the evaluation the available PVS report(s) if not obsolete (PVS reports from more than five years ago) or confidential.

The SD will send the working documents to the Group, including the dossiers received from applicant Members, at least one month before the Group meeting (i.e., **24 September 2021**).

The experts can request support from the SD at any time.

The SD suggests the nomination of a Chair and Rapporteur for the Group's consideration.

The SD can suggest a preparatory meeting with the Chair, the Rapporteur or all experts to address specific points in advance, if needed.

The experts are expected to:

- Be familiar with Chapters [1.9](#) and [15.2](#) of the *Terrestrial Code*;
- Evaluate and study in detail all dossiers provided by the OIE;
- Take into account any other information available in the public domain that is considered pertinent for the evaluation of the dossiers;
- Summarise the dossiers according to the *Terrestrial Code* requirements by completing the summary tables provided by the SD (the summary tables will be provided at a later stage along with the working documents for the meeting). Experts are expected to capture and summarise in each corresponding section of the summary table the main gaps as well as strengths identified during the assessment of the dossiers, using extracted texts or reference to pages/annexes from the application;
- Draft questions to the applicant Member whenever the analysis of the dossiers identifies incomplete or unclear information;
- Submit to the SD the completed summary tables for each application together with possible questions for the applicant Members at least 10 days before the teleconference and preferably by **15 October 2021**;

The SD will compile the summary tables and the questions to be forwarded to the applicant Members before the teleconference. All subsequent information and material provided by a Member will be forwarded to the Group.

During the meeting

- Agree on the appointment of the Chair and Rapporteur of the meeting (the Chair will lead the discussion and the Rapporteur will ensure that the report reflects the discussion and captures the detailed assessment of the dossiers);
- Mention any potential conflict of interest and, if relevant, withdraw him/herself from the discussion;
- Contribute to the discussions;
- Provide a detailed report in order to recommend, to the Scientific Commission, the Member(s) and/or zone(s) to be recognised (or not) as free from CSF and to indicate any information gaps or specific areas that should be addressed in the future by the applicant Members.

If during the teleconference the Group decides that additional information should be requested from an applicant Member before an informed conclusion can be drawn, the SD can request it and forward the additional information to the Group at a later date. The Chair is responsible for coordinating the finalisation of the assessment and for ensuring that the views of all members of the Group are taken into consideration.

Should the Group not be able to complete its Terms of Reference during this meeting, experts' contributions will be solicited after the meeting, including by teleconference if needed.

After the meeting

The SD will circulate the draft report after the teleconference is over. Experts are expected to contribute to the finalisation of the report within approximately one week.

The SD will circulate the final version of the report to the Group once endorsed by the Scientific Commission and is published online.

Deliverables

A detailed report to recommend to the Scientific Commission whether an applicant Member(s) should be (or not) recognised with an official CSF free status. The report should indicate any information gaps or specific areas that should be addressed in the future by the Members.

Reporting / timeline

The OIE will circulate the draft report no more than seven days after the teleconference (no later than 4 November 2021) and the Group will finalise its report within ten days (indicative deadline: 15 November 2021).
