Main address: [Home - WOAH - World Organisation for Animal Health](#)  
Procurement address: [Procurement - WOAH - World Organisation for Animal Health](#)

**Main activity**

International Organisation

**Section II: Object**

**Scope of the procurement**

**Title:** Provision of e-learning modules and other services  
**Type of contract:** Services agreement

**Short description of the procurement:**

WOAH has reformed its training system and has created for this purpose its Global Platform for the Training of Veterinary Services. This Platform, including the Training Portal, has been implemented to manage WOAH training activities from learning needs' assessment to evaluation, whether they are face-to-face or at a distance. Indeed, a crucial point of the reform is to significantly increase the distance learning offer at WOAH.

Thanks to this initiative, WOAH is committed to provide its Members with diversified and 'à la carte' training to improve the implementation of WOAH standards and thereby contribute to the sustainable improvement of global veterinary governance.

WOAH training – whether face-to-face, virtual or e-learning - is developed around a Competency-based Training Framework (CBTF) currently structured around 16 Competency Packages which together cover extensively WOAH Codes, Manuals (*Manual of Diagnostic Tests and Vaccines for Terrestrial Animals* and *Manual of Diagnostic Tests for Aquatic Animals*) and additional texts. WOAH CBTF is a founding document that defines education areas, key competencies and learning objectives tailored to WOAH values and goals; it serves as a basis to develop high quality and fit-for-purpose training programmes aimed specifically at developing and strengthening Veterinary Services capacity to implement WOAH standards. The compilation of the Terms of Reference of the 16 Competency Packages constitutes the body of WOAH CBTF. It addresses three educational levels (Day 1, Day 2 and Expert levels) and the e-modules developed under this framework are accessible to all WOAH Members on the WOAH Training Portal (based on a Moodle platform).

### Information about lots

The call for tender is divided as follows:

- Lot n°1: Trade - Provision of eleven eLearning modules on the trade of animals and animal products, and other services
- Lot n°2: Welfare of reptiles - Provision of one eLearning module on the killing of reptiles for their skins, meat, and other products
