Introduction

1. The year 2025 was marked by a budget execution in line with the voted authorisations, in a context of organisational transformation and preparation of the 8th Strategic Plan.
2. In accordance with Article 11 of the Financial Regulations and Article 32 of the General Rules, this document presents the Organisation's financial report and accounting statements for the financial year ending 31 December 2025. The financial statements follow the International Public Sector Accounting Standards (IPSAS 1) and include: Statement I. Financial Situation; Statement II. Financial Performance; Statement III. Statement of Cash Flow; Statement IV. Statement of Changes in Net Assets; and Notes to the Financial Statements.
3. WOAHA adheres to the French General Accounting Plan, ensuring its accounting rules and methods align with established guidelines. Key accounting principles include continuity of operations; independence of accounting periods; nominalism (or historical cost accounting); prudence; consistency in accounting methods; materiality; non-compensation; accurate information; substance over form; and intangibility of the opening balance sheet.
4. This Financial Report includes the following:
 - Consolidated Financial Statement for the Regular Budget, World Animal Health and Welfare Fund, Regional and Sub-Regional Representations
 - Individual Financial Statements for the Regular Budget, World Animal Health and Welfare Fund, Regional and Sub-Regional Representations
 - Financial Statements for the Autonomous Retirement Pension Fund for Headquarters staff, and for the Joint Retirement Pension Fund for Regional and Sub-Regional Representations staff.
5. The Financial Statements of the Pension Funds are presented separately, as they are independent of the Organisation's budget.
6. The Chartered Accountant¹ reviews the financial statements for consistency and plausibility, ensuring compliance with WOAHA Financial Regulations, the French General Accounting Plan, and IPSAS as applicable. The review includes regularity of accounting entries records; compliance with Financial Regulations and policies; asset management of depreciation/amortisation calculations; operations and services compliance; and the preparation of comprehensive Financial Statements.
7. The Chartered Accountant advises on the management and performance of accounting entries records, focusing on investments, foreign exchange operations and risk management. The Annual Report of the Chartered Accountant is submitted to the External Auditor² and Council Auditors. The Certificate of accounts from the Chartered Accountant is annexed to this report.
8. In accordance with Article 12 of the Financial Regulations, the External Auditor shall audit all accounts, ensuring compliance with International Standards on Auditing (ISA). The External Auditor report (93GS/Fin-03) provides a comprehensive assessment of the risks and effectiveness of internal controls. In addition, since 2015, the External Auditor has also served as the Statutory Auditor, certifying that the Organisation's annual accounts accurately and fairly reflect financial operations, the overall financial situation and assets from the previous financial year.
9. The Financial Report undergoes additional auditing by the Council Auditors and is reported in 93GS/Fin-02.
10. This report complements the Director General's Report on 2025 WOAHA Activities (93GS/Adm-05), which provides a detailed overview of the progress achieved by the Organisation.

¹ The contact details and qualifications of the Chartered Accountant can be provided upon request.

² The contact details and qualifications of the External Auditor can be provided upon request.

I. Financial Performance in 2025

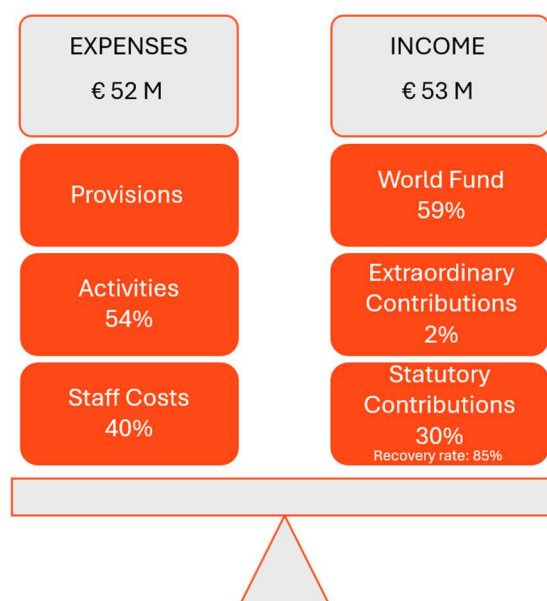

Figure 1. 2025 key figures

11. In 2025, WOAHA implemented the budget in accordance with both the initial budget adopted by the World Assembly of Delegates in 2024 and the revised budget approved in 2025. Key financial indicators demonstrate Members' continued commitment to supporting the Organisation through both statutory and extraordinary contributions.
12. Throughout 2025, in its continued commitment to meeting Members' expectations, WOAHA maintained a high level of activity in both standard-setting work and capacity-building initiatives provided to Members, including digital data management tools (Status, WAHIS, ANIMUSE, PVSIS, etc.) and capacity development activities.
13. The Organisation expresses its sincere gratitude to Members for their continued commitment to animal health and respectfully encourages those with the capacity to consider supporting its work through extraordinary contributions. In 2025, three Members made extraordinary contributions to WOAHA: France, Italy and Chinese Taipei.
14. The 2025 Financial Year confirmed the stability of statutory contributions and their recovery rate, although the latter remains below the level required for the Organisation to sustain its activities. The sustained high level of World Animal Health and Welfare Fund activities, combined with the rigorous management of voted appropriations, enabled the Organisation to maintain its strategic priorities in an uncertain context.
15. In 2025, the statutory contribution recovery rate reached 84% (91% including arrears), thereby enabling the coverage of € 20.58 M in Regular Budget expenditure. Consolidated income (Regular Budget, World Animal Health and Welfare Fund, and Regional and Sub-regional Representations) enabled the Organisation to cover all expenses incurred, in accordance with the principle of a balanced budget.
16. The level of programmes implemented through the generous support of resource partners remains high, as illustrated in Figure 1. As in previous years, the technical activities of the Regional and Sub-Regional Representations continue to be financed primarily through voluntary contributions.

a) Strategic reorganisation

17. The year 2025 marked a period of strategic reorganisation, as the Organisation prepared for the implementation of its 8th Strategic Plan. Within the existing human and financial framework, functional responsibilities were redefined to align the organisational structure with the priorities of the 8th Strategic Plan, thereby strengthening the Organisation's capacity for effective implementation.
18. A key outcome of the exercise was the creation of a third Deputy Directorate General, dedicated to the global framework and capacity development. This evolution addresses the significant increase in the Organisation's operational activities, the growing complexity of partnerships and funding modalities, and the need to reinforce strategic management and horizontal coordination.
19. The creation of this Directorate was achieved within the existing workforce through a redistribution of responsibilities and teams. Its financial impact remains under control, thanks to internal reallocations and savings generated from other positions.

b) Gradual strengthening of support functions

20. Special efforts were made to strengthen administrative and financial functions, enhance support for the Organisation's staff, associate experts, and partners, and address the External Auditor's recommendation regarding the implementation of a computerised Human Resources Information System (HRIS).
21. The 2025 Financial Year marks the second year of implementing the IT tool *Procure 2 Pay* (P2P), which enhances the Organisation's budgetary analytical capacity and strengthens expenditures oversight. Ultimately, the analytical review of the accounts is expected to be enhanced, with improved identification of cost centers, a more precise breakdown of expenditures by type and by project and strengthened traceability between financing and activities. The implementation of this tool has strengthened monitoring capabilities for administrative teams. However, it has not yet provided technical teams with visibility into budget consumption at the project level. The deployment of the project module is scheduled for 2026 and will enhance the monitoring of budget consumption.
22. In addition, this budget tool has been piloted in two regions as part of an initial experimental rollout. This pilot phase has identified the adjustments required to ensure the tool's effective implementation and has prompted the administration to reflect on the level of decentralisation best aligned with local constraints. In 2026, an audit of the expenditure function will provide a clearer understanding of the challenges encountered and help identify the most relevant areas for improvement.

c) Overall assessment of financial health

23. The Organisation's financial health, consistently highlighted by both the Chartered Accountant and the External Auditor over several years, is built on disciplined budget execution, reflected in controlled expenditure despite a sustained level of activity. It is complemented by the gradual strengthening of support functions and enhancements in the services provided to technical teams.
24. However, the Organisation's continued reliance on voluntary contributions highlights its limited autonomy in carrying out strategic activities. Certain regional offices face financial vulnerabilities and are overly exposed to funding risks. This fragility could undermine the clarity and effectiveness of the Organisation's regional operations. Structural pressure remains on fixed costs, including recurring expenses related to the complex information systems

implemented and maintained by the Organisation to support its Members. Multi-year financial visibility remains an area for improvement, which is already a focus of the Governance Review Committee's (GRC) efforts.

25. The 2025 Financial Year is therefore a year of disciplined transformation. WOAH demonstrated its ability to maintain consistent budget execution during organisational change, actively prepare the 8th Strategic Plan, and enhance its financial management tools.

1. Regular Budget

26. The 2025 Financial Year reflects controlled expenditure, with a consumption rate of nearly 97%. The administration's consistent focus on avoiding a deficit has led to a highly controlled approach to expenditure, enabling the Organisation to manage risk effectively and maintain its provisioning capacity. In particular, significant expenses for investment and maintenance work will soon be required to ensure the technical compliance of the headquarters' premises.
27. Regular Budget expenses reflect the Organisation's activity, with staff expenses representing a significant share of total expenditure. The Organisation's staff expenses accounted for nearly 51% of Regular Budget expenditure, reflecting both the Organisation's level of expertise and its ongoing investment in supporting Members through missions and activities.

1.1 Indicator 1: Distribution of Members Across Statutory Contribution Categories

28. This indicator presents the number of Members in each statutory contribution category at the end of the Financial Year.
29. In accordance with the Organic Statutes, Members have the liberty to select their annual statutory contribution category. Table 1 provides an overview of the six statutory contribution categories, the number of Members in each, and the corresponding contribution amounts for 2025.
30. WOAH requests only 50% of the total dues from Members identified as Least Developed Countries (LDCs) by the United Nations Economic and Social Council, as detailed in Table 1. Bhutan's exit from the LDC category became effective in 2025.

Contribution Category	Number of Members	2025 Statutory Contribution	Amount €
1	16	315 375	5 046 000
2	7	252 300	1 766 100
3	12	189 225	2 270 700
4	15	126 150	1 892 250
5	25	63 075	1 576 875
5 LDC	3	31 538	94 613
6	66	37 845	2 497 770
6 LDC	39	18 923	737 978
Total	183		15 882 285

Table 1. Distribution of Members across the six statutory contribution categories

31. Figure 2 illustrates the distribution of WOAAH Members per contribution category in 2025 and is completed by a detailed listing of Members per region and statutory contribution category in Annex A.

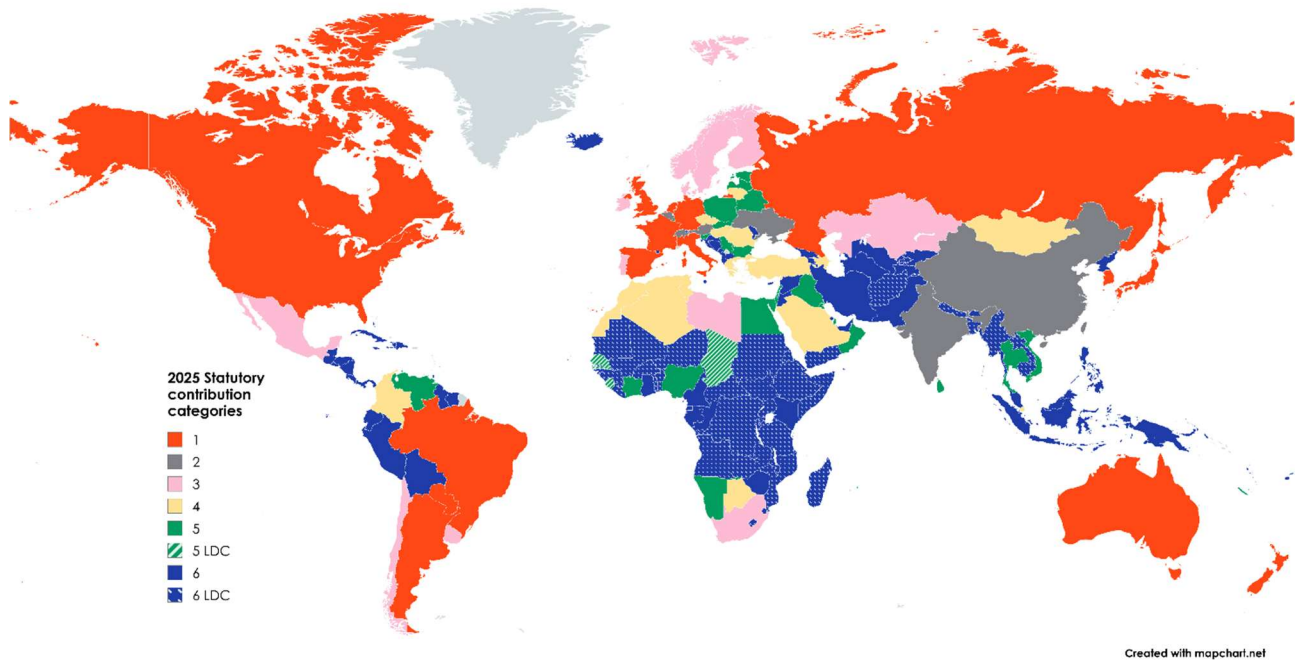

Figure 2. Distribution of Members per statutory contribution category

32. In 2025, 73% of Members contributed under statutory contribution categories 5 and 6 (133/183). In contrast, only 13% contributed under categories 1 and 2, and 15% under categories 3 and 4. This distribution significantly influences the Regular Budget's financial outlook with a dependence on the smallest percentage of Members paying their statutory contributions.
33. Two Members in category 1 and one Member in category 2 have opted to pay a category A contribution with a minimum amount of € 500,000, which includes their respective statutory contributions.
34. Annex A presents the list of Members by category, including extraordinary category.

1.2 Indicator 2: Theoretical amount of statutory contributions

35. This indicator shows the theoretical amount of statutory contributions expected in the Financial Year, assuming all Members fulfil their payments.
36. For 2025, calculated statutory contributions amounted to € 15.88 M, representing 76% of total Regular Budget income (compared with 73% in 2024). This significant share underscores the vital role these contributions play in implementing the annual work programme and in budget planning. The use of extraordinary and statutory contributions as a core source of income demonstrates WOAAH's commitment to structured and predictable financial planning, supporting stability and the strategic allocation of resources for ongoing and future initiatives.

Graph 1. Theoretical amount of statutory contributions

37. The theoretical amount of statutory contributions includes the share allocated to the Regional Representations. A share of each Member's statutory contribution is allocated to the Regional Representation of its Regional Commission. If a Member belongs to multiple Regional Commissions, the share is allocated to the Regional Representation of the Commission to which it primarily belongs.

1.3 Indicator 3: Statutory contributions recovery rate

38. This indicator reflects the annual recovery rate of statutory contributions received.

39. In 2025, statutory contributions received demonstrates an 84% recovery rate, consistent with previous years, as illustrated in Graph 2.

Graph 2. Theoretical amount of statutory contributions and actual amount received

1.4 Indicator 4: Arrears of statutory contributions

40. This indicator provides both the number of Members and the amount of payment arrears by region and category.

41. Table 2 shows a breakdown of Members with arrears by region. Members with arrears of 5 to 11 years are primarily located in Africa.

Region	2024		2024		2025		2025

Table 2. Statutory contributions in arrears per region

42. Table 3 presents a breakdown of Members with arrears, classified by statutory contribution category. WOAHA has observed that Members facing financial challenges, particularly those in category 6, are the most likely to struggle with meeting their contribution obligations, resulting in arrears of more than five years.

	2024		2024		2025		2025

Total	39	2 260	31	6 647	35	2 203	35	7 920

Table 3. Statutory contributions in arrears per category

43. As of 31 December 2025, a total of 70 Members (38% of all Members) had outstanding contributions, the same proportion as in 2024. However, the distribution of Members in arrears shifted: Members with 1 to 4 years of arrears decreased to 35 in 2025 (vs 39 in 2024), while those with 5 to 11 years of arrears increased to 35 (vs 31 in 2024). The total outstanding contributions amounted to €10.12 M (vs €8.91 M in 2024), representing a 13.6% increase. This rise is primarily attributable to the increase of Members, in category 6, with 5 to 11 years of arrears (29 in 2025 compared with 24 in 2024).
44. From the second semester of 2025, following the General Session in May 2025, an arrears recovery action plan was implemented to improve recovery through targeted follow-up, with repayment plans offered to the Members concerned.
45. In 2025, the Organisation received € 1.23 M in arrears from 22 Members, corresponding to 2024 and earlier years (compared with € 1 M received from 17 Members in 2024). This is the result of the ongoing efforts of WOAHA to recover outstanding contributions, notably two Members that settled 5 and 7 years of arrears, respectively.

1.5 Indicator 5: Extraordinary contributions per year

46. This indicator tracks the evolution of extraordinary contributions over the last five financial years.
47. In addition to statutory contributions, the Regular Budget also includes extraordinary contributions. Members choosing to make an extraordinary contribution are exempt from their statutory annual contribution, as it is covered by the extraordinary contribution. There are two categories of extraordinary contributions: Category A, with a minimum amount of € 500 K, and Category B, with a minimum amount of € 300 K. The number of Members making extraordinary contributions remains limited, and WOAHA continues to encourage broader participation.

48. In 2025, three Members made extraordinary category A contributions: France, Italy, and Chinese Taipei.
49. Over the past five years, although the number of contributing Members has remained stable (see Table 4), the total value of extraordinary contributions has decreased due to fixed contribution levels, while statutory contributions have increased following adjustments to OECD statutory contributions or annual indexing based on the OECD Total Consumer Price Index (CPI). This is reflected in the convergence between the highest statutory contribution category (Category 1: € 315 K in 2025) and Category B extraordinary contributions (€ 300 K). Although the gap is minimal, extraordinary contributions remain flexible, requiring only minimum thresholds: € 500 K for Category A and € 300 K for Category B.

Table 4. Evolution in the number and value of extraordinary contributions

1.6 Indicator 6: Annual income

50. This indicator summarises the total income of the Regular Budget as of 31 December 2025.
51. In 2025, Regular Budget income amounted to € 20.8 M, slightly below the revised voted budget of € 21.17 M (-1.76%). The vast majority of income (81%) comes from statutory and extraordinary contributions. The main variation is explained by income for the WAHIS platform. In 2025, it was decided to carry out code cleaning to improve system reliability and user services, in addition to the annual maintenance with the service provider, and not to contract a service provider to develop additional modules for the platform. This decision resulted in lower than planned expenditures and, consequently, a corresponding adjustment of the same amount in income.
52. Under the new accounting standards effective in 2025, exceptional income and expenses must be recognised under other operating income or expenses.

1.7 Indicator 7: Annual expenses

53. This indicator provides a detailed overview of total expenditure under the Regular Budget as of 31 December 2025.

54. The Regular Budget includes the Organisation’s operating budget, covering staff costs and selected core activities.
55. In 2025, total expenditure reached € 20.58 M, 2.79% below the approved budget.

Budgetary Chapters	Estimated 2025	Actual 2025	Difference	Actual 2024

Table 6. Regular Budget Expenses in 2025

56. The observed budget variances are mainly attributable to:
- Adjustments in funding, including the coverage of certain expenses by donors.
 - Reduced activity levels in certain areas, leading to a downward adjustment of development costs on specific projects.
 - A staff expenses adjustment resulting from residual delays in the replacement of certain staff.
 - Increased financial support to Regional and Sub-Regional Representations to stabilise those experiencing financial fragility.
 - Accounting adjustments, including supplementary allocations to provisions for operational risks and contribution arrears.
57. Overall, these variances reflect budgetary adjustments linked to financing arrangements, activity pacing, and prudent financial management measures.
58. As of 31 December 2025, the Regular Budget reports a positive balance of € 218,050. WOAHA proposes transferring € 218,000 to the Reserve Fund to cover future real estate expenses.

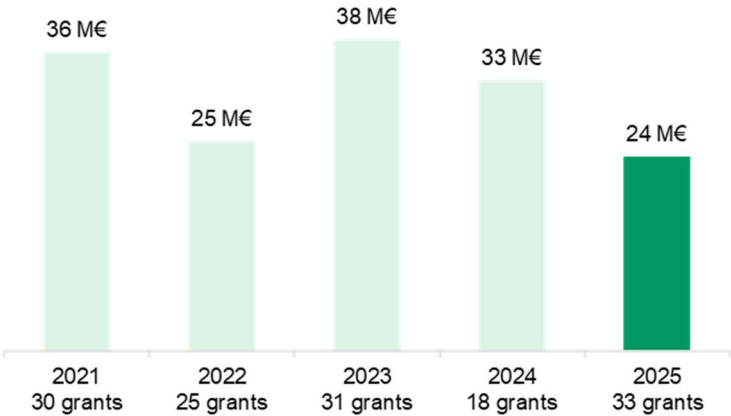

2. World Animal Health and Welfare Fund (World Fund)

59. The World Animal Health and Welfare Fund (World Fund) collects voluntary contributions from resource partners to support the implementation of WOAHA’s mandate, Strategic Plans and associated activities. Investors to the World Fund include a wide array of public entities of the WOAHA Members (Ministry of Agriculture, Foreign Affairs, Development agencies, etc.), international organisations, philanthropic organisations, non-governmental organisations and industry associations.
60. WOAHA’s resource mobilisation strategy aims to diversify the typology of investors to the World Fund and broaden the funding base, in addition to sustaining the necessary resources to complement the Regular Budget. This ensures the supply of sufficient financial resources to meet the demands of the World Assembly for implementing resolutions and/or strategies, while continuing to enable capacity building, partnerships and networks for the Membership. It is important to recall that voluntary contributions through the World Fund are time-bound and purpose-specific and are based on the generosity of resource partners.

- 61. WOAAH would like to recognise and thank the following resource partners with whom WOAAH has active voluntary contributions: Australia, Canada, China, France, Germany, Ireland, Italy, Japan, Kazakhstan, Republic of Korea, Mexico, the Netherlands, Paraguay, Qatar, Saudi Arabia, Spain, Switzerland, United Arab Emirates, United Kingdom, United States of America, Gates Foundation, Coefficient Giving (formerly Open Philanthropy), Food and Agriculture Organization of the United Nations, European Union, World Bank, World Health Organization, GALVmed, Global Health Security Fund, International Horse Sports Confederation, International Fund for Animal Welfare, Four Paws, and Royal Society for the Protection of Animals. Since 2019, WOAAH is also a beneficiary of the AMR Multi-Partner Trust Fund (supported by Germany, the Netherlands, Sweden, United Kingdom and the European Union) and the Nature for Health Trust Fund (funded by Germany).
- 62. In 2025, the World Fund demonstrated consistent financial performance across the six-year period, notwithstanding the global funding landscape, fiscal and geopolitical pressures; with certain data confirming continued interest to invest but at a limited capacity. Linked to this, WOAAH is revising and adapting its resource mobilisation efforts by developing a new strategy and action plan in 2026 to support the delivery of the 8th Strategic Plan, which focuses on retaining the current donor base while identifying and engaging new resource partners.
- 63. The below six key financial indicators, along with explanatory notes, offer a thorough overview of the World Fund's financial performance in 2025.

2.1 Indicator 1: Grants signed per annum

- 64. This indicator provides the year-end number and value of grants signed through the World Fund.
- 65. In 2025, 33 grants were signed with 26 different resource partners, totalling € 23.59 M. This corresponds to the average grant value of € 0.71 M; this is € 641 K lower than the 2023-2025 average and the lowest level recorded in the past ten years. Although the number of grants signed (33) was the highest in the last decade, the total value of these grants ranks as the second lowest over the same time period. The relatively small average grant size combined with the high number of grants signed, suggests that partners remain willing to invest in WOAAH despite ongoing budgetary constraints.
- 66. It is also representative of WOAAH's contribution to the Pandemic Fund, with country projects funded through this mechanism envisage the conduct of PVS Pathway missions. Several grants signed with other international organisations and WOAAH Members to support the conduct of these missions, which serve as a critical source of information to monitor performance and track progress with their results framework (national and for the Pandemic Fund).

Graph 3. Grants signed per annum

2.2 Indicator 2: Active Grants

67. This indicator provides the year-end number and value of active grants.

Graph 4. Active grants

68. WOH uses the multi-year funding from the World Fund to maintain critical staff and implement its programmes, as a complement to the statutory and extraordinary contributions received through the Regular Budget. The number of active grants per annum signed through the World Fund provides WOH with a relatively stable funding environment.

69. As of 31 December 2025, the number of active grants stood at 102 (see Graph 4), reflecting a 24% increase in active grants compared to the previous year and driven by the high number of grants signed in 2025. The value of active grants remained relatively stable at € 153 M, reflecting a decrease in the average value of individual active grants.

2.3 Indicator 3: Income received per annum

70. This indicator provides the year-end total income received through the World Fund.

Graph 5. Income received per annum

71. Most grants are multi-year, with payments distributed over the lifespan of the grant. As such, annual income reflects payments from grants signed in previous years, as well as annual voluntary contributions, or one-time payments. Income received in 2025 amounted to € 23,83 M from 37 resource partners (2024: 36). Compared with the 2022-2024 average this represents a 22% decrease in income received in 2025. The stable number of contributors to the WOH

World Fund indicates continued strong commitment to WOAHA at a time of strong fiscal pressure on budgets for international organisations.

2.4 Indicator 4: Resource partner typology

72. In 2025, for the first time in the past 5 years, international organisations emerged as the largest contributing group to the World Fund, albeit only slight, representing 45% of the total value of grants signed (€ 10,67 M). WOAHA Members have traditionally been the highest contributing group, and in 2025, accounted for a very similar share of 45% (€ 10,59 M). Foundations, NGOs and private sector associations represent the remaining 10%, which also constitutes a relatively significant share compared to previous years.

Graph 6. Resource partner typology

73. The forthcoming 2026 resource mobilisation strategy will endeavour WOAHA to look for alternative sources of funding, including private funding through public-private partnerships (blended finance) or philanthropy. Supplementing public with private funding would aim to reduce budget gaps and mitigate risks through diversified funding, making WOAHA less vulnerable to future financial fluctuations.

2.5 Indicator 5: Outstanding monies owing

74. This indicator provides the year-end total value of outstanding monies owing to the World Fund based on signed grants.
75. Due to the dynamic nature of the World Fund, which is supported by multiple donors and operates on a multi-year basis, the level of outstanding monies owing fluctuates as new grants are signed, funding tranches are received, and grants are closed. In line with accrual-based accounting principles, WOAHA records the total amount of outstanding monies from grants signed to the World Fund to support planning and budgeting, including payroll management. This indicator provides an anticipated projection of anticipated income to the World Fund in the upcoming years, based on active grants in place at year-end.

Graph 7. Outstanding monies owing

76. As of 31 December 2025, the outstanding monies owing to the World Fund totalled € 52.60 M. This year-end figure represents a significant decrease compared to 2024 and a return to levels broadly consistent with those observed since the beginning of the 2020s. Put into perspective, when compared with the average expenditure over 2023-2025, the outstanding monies would enable funding for an additional 1,85 years of implementation.

2.6 Indicator 6: Expenses

77. This indicator provides the year-end total expenses through the World Fund.

Graph 8. Expenses

78. In 2025, the World Fund's expenses reached a record high of € 31,39 M. Following a gap year in 2024, caused by the transition to WOA's new financial management system, the 2025 expenses confirm WOA's increased capacity to implement funding received through the World Fund. In 2025, expenses exceeded income by € 7,56 M, the highest annual negative balance recorded to date. This difference reflects the accelerated implementation of activities funded by grants signed in previous years, as well as efforts to deliver grants within their foreseen end dates. It also reflects increased investment to ensure operational capacity and strengthening of implementation modalities.

79. Linked to this, the World Fund provides a critical source of funding for WOA's payroll, supporting staff both at Headquarters and in Regional and Sub-Regional Representations. In

2025, the World Fund contributed € 1.84 M to the Regular Budget in the form of overheads, an important contribution to the Organisation's financial sustainability.

3. Regional and Sub-Regional Representations

80. The objective of WOA's 13 Regional and Sub-Regional Representations (RR/SRR) - distributed across Africa, the Americas, Asia and the Pacific, Europe, Middle East - is to provide Members with regionally adapted services across the Organisation's mandate.
81. The RR and SRR are operational thanks to financial contributions received from host countries (provision of premises and/or fixed financial contributions), voluntary contributions from resource partners to implement specific grants and the provision of seconded national experts.

3.1 Indicator 1: Source of income

82. This indicator provides the sources of consolidated income for the 13 RR/SRR upon closure of accounts.
83. In 2025, total income for the RR/SRR was equal to € 14.26 M (compared to € 12.04 M in 2024) and comprised:

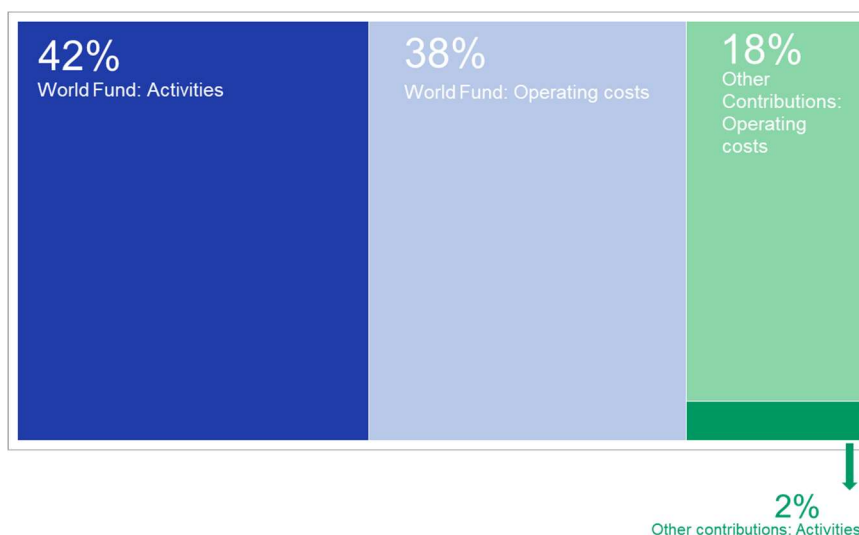

Graph 9. Sources of income

84. In 2025, 74% (compared to 73% in 2024) of the income of the RR/SRR was derived from the World Fund, confirming that the RR/SRR are mainly dependant on voluntary contributions through the World Fund to operate. This reliance represents a vulnerability for the Organisation. By nature, voluntary contributions are unpredictable and earmarked for specific purposes. The priorities of resource partners therefore influence the grants channelled through the World Fund, determining both which RR/SRR benefit from them and the types of activities that can be funded.
85. This increases the financial pressure on certain RR/SRR and does not allow for long-term financial visibility for the regional offices. In 2025, the financial situation remained fragile for the three WOA's Representations in Bamako, Gaborone, and Nairobi, while the Regional Representation for the Middle East and the Sub-Regional Representation for South-East Asia had a constrained budget. In addition, the voluntary contribution supporting the Sub-Regional Representation in Tunis expires on 31 December 2025. A contribution from the Regular Budget in 2025 helped to alleviate their funding difficulties.
86. The funding of the RR and SRR highlights significant disparities both between funding sources and in the level of support provided by host countries.

3.2 Indicator 2: Distribution of expenses per source of income

87. This indicator reports on global RR/SRR expenses per source of income. In 2025, expenses totalled 13.2 M€ (compared to 10.9 M€ in 2024).
88. In 2025, 80% of RR and SRR expenditure was covered by the World Fund. The World Fund financed 95% of technical activities and 68% of operating costs (including salaries). This percentage shows a growth in activities in regions totally dependent on World Fund. However, it should be noted that the amount paid by the World Fund is not linear among the RR and SRR, as it depends mainly on donor contracts, which may be earmarked for a specific RR or SRR.

Graph 10. Distribution of expenses per source of income

89. The role of the RR and SRR is essential for the Organisation in strengthening relations with Members, responding to regional specificities and implementing regional programmes (e.g. global initiatives for priority animal diseases or issues, capacity building and systems improvement). It is for this reason that the Organisation will continue to explore more sustainable sources of income, in particular from resource partners or Members, to ensure continuity in the services provided at regional level.

II. Consolidated Financial Statement

1. Assets

90. Key assets include:
- Investments: These were placed in short-term products or savings accounts to keep funds readily available (capital and interest guaranteed), except for the Reserve Fund and the Autonomous Retirement Pension Fund, which are invested for longer terms (accounts presented separately). A current account compensation system is in place to earn interest on the available funds.
 - Contribution arrears, including € 53 M from the World Animal Health and Welfare Fund's financial partners and € 9.8 M in statutory contributions from Members.
 - Tangible fixed assets mainly include the cost of the building at 14 rue de Prony.

2. Liabilities

91. The main components of liabilities are:
- Deferred income, including € 89 M from subsidies signed with the World Animal Health and Welfare Fund's resource partners.
 - Contributions received in advance: In 2025, contributions received for 2026 and subsequent years totalled € 4 M. These contributions will be recorded as income in 2026.
92. In 2025, no new financial contributions were received for the acquisition of the building at 14 rue de Prony³.

III. Replenishment of the Reserve Fund

93. In response to the External Auditor's previous recommendations, the Reserve Fund was incorporated into the Regular Budget as of 1 January 2016, with the aim of reaching a minimum level of 35% of the total expenditure of the former Sections 1 to 5 of the Regular Budget, now represented by Chapters 1 to 8 under the current Budget Structure⁴.
94. As of 31 December 2025, the net assets of the Reserve Fund amounted to € 3.5 M and corresponds to 2.32 months of operations excluding WAHIS project expenses (compared with 2.22 months in 2024).
95. Considering the positive balance recorded in the Regular Budget for 2025, € 218 000 will be allocated to the Reserve Fund in 2026.

IV. Pension Funds

96. Following the recommendations of the External Auditor, an actuarial study conducted in 2023 assessed the Autonomous Retirement Pension Fund for Headquarter's staff and the Joint Retirement Pension Fund for Regional and Sub-Regional Representations staff, using three standard pension fund indicators:
- Solvency: The analysis indicated that the current scheme may face challenges in meeting its long-term obligations. It is projected to remain solvent for approximately 55 years, with a potential variation of plus or minus 10 years depending on the scenario considered.
 - Equity: The current scheme does not respect the principle of equity among members of the Autonomous Retirement Pension Fund:
 - i. Salary Influence: Benefits increase with higher salaries, but not in a strictly linear manner, indicating that rights are not precisely proportional to contributions.
 - ii. Seniority Influence: Similarly, greater seniority leads to higher benefits, but this is not a linear correlation, as rights are not directly proportional to seniority.

³ France pays an extraordinary Category A contribution that helps cover the monthly loan repayments for the acquisition of the building at 14 Rue de Prony.

⁴ The various expense sections taken into account for the basis for calculating the prudential level of the Reserve Fund were: Section 1: Purchases, Section 2: Outside services, Section 3: Taxes, Section 4: Staff expenses, Section 5: Other management expenses.

Current chapters are: 1. Information Management, 2. Standard Setting and Implementation, 3. Capacity Building, 4. Global Frameworks, 5. International Collaboration, 6. Institutional Governance, 7. General Administration, 8. Regional and Sub-Regional Representations.

iii. Career Location: The system is particularly disadvantageous for WOAH employees whose entire careers are covered by the French Social Security Retirement (CNAV: Caisse Nationale d'Assurance Vieillesse, in French), while it is highly advantageous for foreign or French staff members subject to other mandatory French schemes.

- Efficiency: The effectiveness of the pension scheme varies significantly among members, depending on their professional background, seniority, and salary level. This efficiency is particularly low for the Joint Retirement Pension Fund for Regional and Sub-Regional Representations, as only a small portion of employee and employer contributions is actually redistributed, leading to unjustified and continuous growth of the fund's reserves.

97. The findings of this study, along with the implementation of measures to improve the pension system, continued to be acted upon in 2025, with a focus on enhancing prudential risk assessment. In particular, a more precise assessment of the projected annuity costs is being developed within the Organisation, alongside strengthened management of the pension fund's financial assets. The compilation of these reliable elements will serve as a basis for informed decision-making when the time comes.

1. WOAH Autonomous Old-Age Pension Fund

98. As of 31 December 2025, the WOAH Autonomous Pension Fund recorded a positive balance of € 1.4 M. The total net assets of the Autonomous Retirement Pension Fund amount to € 21.5 M.

2. Joint Old-Age Allowance Fund for Regional and Sub-Regional Representations

99. As of 31 December 2025, 31 staff members of the Regional and Sub-Regional Representations have joined this fund. The Joint Retirement Pension Fund for WOAH Regional and Sub-Regional Representations staff members recorded a positive balance of € 209 K. The net assets of this Joint Retirement Pension Fund total € 1.9 M.

V. Consolidated financial statements

Presentation for the financial statements

100. The financial report includes the following financial statements:
- Statement of Financial Position, presenting the assets, liabilities and net position at 31 December 2025;
 - Statement of Financial Performance, presenting income and expenses for the 2025 Financial Year and the result (surplus or deficit);
 - Statement of cash flow;
 - Table showing variations in net assets;
 - Notes.

Main accounting principles

101. WOAH accounts are kept according to an accrual-based accounting system.
102. Accrual-based accounting consists of recording all transactions in WOAH accounts as and when they occur (e.g. date of an invoice or date on which a subsidy agreement is signed). In contrast to the cash accounting system, transactions are not recorded on the basis of movements in the bank statements.
103. WOAH records all the accounting documents attesting to an economic operation at the date these documents are established. Then WOAH records receipts and disbursements on the date they occur.

Scope of the consolidation

104. The consolidation presented in this chapter includes the following accounts:
- Regular Budget;
 - World Fund;
 - Accounts of the Regional and Sub-Regional Representations.
105. The accounts for the Pension Fund and for the Allowance Fund, which are not within the scope of the consolidated WOAH accounts, are presented separately.

VI. Financial statements of individual entities

1. Regular Budget Account

106. The Regular Budget account is kept in accordance with an accrual-based accounting system. It includes all the ordinary revenues and expenses of WOAH Headquarters, the fixed assets and the Reserve Fund. This account is managed following WOAH's [Financial Regulations](#).
107. Further to the recommendation from the External Auditor, the method for calculating a prudent level of the Reserve Fund was revised effective from the 2013 Financial Year (see Doc 82 SG/4). It was decided that the Reserve Fund's minimum level should be 35% of expenses in Sections 1 to 5 of the Regular Budget, ensuring coverage for four months of operations. These expense sections considered included: Purchases, Outside services, Taxes, Staff expenses and Other management expenses.
108. In 2022, the Assembly agreed to a new budgetary structure to align with the Organisation's main areas of work. The five sections mentioned above corresponded to the total budget without depreciation and amortisation expenses and are the equivalent to budgetary chapters 1-8:
1. Information Management
 2. Standard Setting and Implementation
 3. Capacity Building
 4. Global Frameworks
 5. International Collaboration
 6. Institutional Governance
 7. General Administration
 8. Regional and sub-regional Representations
109. As of 31 December 2025, the Reserve Fund would cover 2.32 months of operations under the budgetary chapters 1-8 of the 2025 Regular Budget, excluding expenses related to the WAHIS project (compared to 2.22 months in 2024).

Savings accounts	484 402 €	453 623 €
Total	3 387 244 €	2 643 551 €

In compliance with Article 9.1 of the Financial Regulations, the utmost caution is exercised when investing available funds. Investments are recognised at their fair value at the closing date. Any potential capital gains on investments are recorded under assets rather than as financial revenue.

For cash flow purposes, the Regular Budget prioritises short-term investments. Due to rising interest rates on short-term deposits, preference was given to this type of investment in 2025.

Longer-term investments are permitted within the framework of the Reserve Fund.

The total amount of € 1.19 M includes € 0.98 M in bank bonds allocated to the Reserve Fund.

Note 4: Receivable contributions

Note 8: Tangible fixed assets

Tangible fixed assets consist of distinct items intended for long-term use, typically exceeding a duration of 12 months. However, items with a minimal value (below € 500) are registered as expenses in the financial records.

Except for land and advances, tangible fixed assets are depreciated using the straight-line method. The following depreciation periods are applied:

- Building (14 rue de Prony): 40 years
- Fixtures and fittings (12 rue de Prony): 5 to 20 years
- Fixtures and fittings (14 rue de Prony): 5 to 10 years
- Fixtures and fittings: Conference Room: 5 to 20 years
- Transportation equipment: 4 years
- Printing equipment: 5 years
- Computer equipment: accounts dept.: 3 years
- Computer equipment: technical dept.: 3 years
- Office equipment and furniture: 5 to 10 years
- Conference Room equipment: 3 to 5 years
- Computer equipment: I.T. dept.: 3 to 5 years
- Computer equipment: joint services: 3 to 5 years
- Heating equipment: 5 years

An Asset Retirement Commission consisting of the Head of the Budget Unit, the Head of Accounting Unit and the Chartered Accountant, oversees the annual inventory of assets, as outlined in a Director General's Decision dated 26 November 2014.

The building located at 12 rue de Prony, acquired by the Organisation on 22 February 1939, is not recognised in WOA's accounts as an asset.

According to data from the Paris Chamber of Notaries (*Chambre des notaires de Paris*), the appraised value per square meter in the "Plaine Monceau" district of Paris was €10,050 at the end of November 2025 (vs. €9,910 at the end of 2024).

As part of the feasibility study for the Headquarters' building conducted in early 2022, the estimated price per square metre in the "*plaine Monceau*" district of Paris was € 23,000 for the building at 12 rue de Prony while for the building located at 14 rue de Prony, it was € 21,000. The value of the two buildings was estimated at € 82.4 M (€ 48.3 M for 12 rue de Prony, € 33.8 M for 14 rue de Prony and € 0.2 M for the parking spaces). This valuation considered the land value, technical installations, and other similar transactions in the area. It is important to note that these values exclude transfer and legal fees.

Statutory contributions paid in advance	4 047 192 €	4 602 957 €
Voluntary contributions paid in advance	590 856 €	855 281 €
Total	4 638 048 €	5 458 238 €

Voluntary contributions paid in advance principally include the extraordinary contributions in Category A from one Member, as well as the voluntary contribution from the host country to support the conduct of a feasibility survey of the Headquarters buildings. This item also includes an amount for future Members currently in the process of acceding to the Organisation.

Note 12 b: Provisions for liabilities and charges

As of 31 December 2025, provisions for risks and charges totalling € 394 K were recognized in accordance with the applicable accounting standards and the prudence principle. These provisions reflect management's best estimate of probable outflows of resources and are intended to cover: (i) the financing of personnel assigned to donor-funded projects managed through the World Fund, scheduled to conclude in 2026; (ii) identified risks relating to certain human resources matters; and (iii) a potential dispute with a service provider.

Note 13: Borrowings – building at 14 rue de Prony

To finance the purchase of the building at 14 rue de Prony in March 2009, WOAHA contracted two loans. Between 2012 to 2019, WOAHA renegotiated these loans three times, resulting in total saving of € 3.4 M. The last revised loan came into effect on 5 January 2019, with the following conditions:

	Borrowing 1	Borrowing 2
Capital remaining due at 05/01/2019	3 958 040 €	1 828 704 €
Rate	1.40%	1.20%

Depreciation of subsidies - WAHIS	(13 635 256) €	(13 248 951) €
Total	3 483 449 €	2 608 370 €

Investment subsidies include grants received from Members and other resource partners for the acquisition of the building at 14 rue de Prony since 2009, as well as grants through the World Fund for WAHIS.

Regular Budget

As a reminder, voluntary contributions received through the World Fund for WAHIS are transferred to the Regular Budget.

In 2025, the maintenance contract for WAHIS amounted to € 393 K, partially financed by voluntary contributions managed through the World Fund in the amount of € 144 K. Subsequently, the code cleaning (€ 118 K) was covered by voluntary contributions.

Foreign exchange and payment differences	(483) €	(440) €
Total	15 881 802 €	14 839 317 €

Statutory contributions paid by Members are the principal and most sustainable source of income for WOA. In accordance with Article 11 of WOA's Organic Statutes, the six contribution categories range from 3 to 25 units. In 2025, the value of one unit was set at € 12,615 (€ 11,563 for the Regular Budget and € 1,052 for the relevant Regional Representation, including activities managed through the Brussels office). As a result, contributions range from € 37,845 for a Member in category 6 to € 315,375 for a Member in category 1.

Since 2019, 100% of contributions are recognised in the Regular Budget accounts (including both the part allocated to the Regular Budget and the part allocated to the Representations). To ensure proper financial accounting, the portion allocated to the Representations is recorded as an expense under the Regular Budget.

Note 16: Internal contributions

	31/12/2025	31/12/2024
Internal contributions	862 336 €	867 187 €
Total	862 336 €	867 187 €

An internal contribution refers to an internal tax withheld directly from the staff salaries of WOA Headquarters staff, in accordance with Article 12 of the Headquarters Agreement dated 21 February 1977 between WOA and the Government of the French Republic.

Note 17: Voluntary contributions

	31/12/2025	31/12/2024

Contributions for the use of Arabic language	50 000 €	22 036 €
Total	922 762 €	934 425 €

Voluntary contributions refers to the support provided by three Members who opted to pay an extraordinary contribution in category A in 2024. The amount indicated represents the difference

Regular Budget

between the extraordinary contribution paid and the amount of the statutory contribution owed by each of these Members, based on their respective contribution category, with the statutory amount deducted.

Note 18: World Fund subsidies

	31/12/2025	31/12/2024
World Fund subsidies	386 306 €	1 089 919 €
Total	386 306 €	1 089 919 €

These are subsidies related to the Regular Budget but received through the World Fund. In 2025, this amount represents the part of subsidies received through the World Fund to cover WAHIS expenses for this year, including assets depreciation, which are managed through the Regular Budget.

Note 19: Other operating revenue

	31/12/2025	31/12/2024

Other revenue	181 941 €	153 620 €
Total	2 135 549 €	2 144 122 €

Administrative expenses (€ 1.8 M) consisted of overheads applied to grants signed with donors and managed through the World Fund. These expenses were calculated exclusively on disbursed funds as of 30 September.

Note 20: Reversal of provisions (See Note 4)

	31/12/2025	31/12/2024
Reversal of provision for depreciation of contributions	549 783 €	375 133 €
Total	549 783 €	375 133 €

The reversal of provisions for depreciation of contributions occurs following the payment, cancellation or prescription of contributions.

Other	77 748 €	76 118 €
Total	4 771 303 €	5 975 358 €

Regular Budget

External services mainly includes:

- IT services (€ 881 K): 49% related to service provisions for WAHIS;
- Communication expenses (€ 496 K), which include social media communication (€ 148 K), WOAHA website enhancements (€ 99 K), the development of a communication strategy (€ 61 K);
- Translating and interpretation expenses (€ 354 K);
- Consulting and expert services, including temporary staff (€ 141 K) and consultants (€ 308 K) including transition management (DTIS).

Rentals refers to the rental of the General Session venue conducted, which was held in May 2025.

Mission expenses has decreased by € 86 K for WOAHA staff and experts attending WOAHA meetings. While some meetings are held virtually, in-person formats are preferred as they facilitate better collaboration. In 2025, all Specialist commissions, regional commission conferences (three), and Council meetings (three) were organised in person.

Note 23: Taxes

	31/12/2025	31/12/2024
Taxes	48 560 €	25 897 €
Total	48 560 €	25 897 €

WOAHA is exempt from occupancy taxes on the office premises for its activities in France. The only principal the paid is the tax on household refuse.

In 2025, the total amount of € 49 K includes € 21 K of VAT that was not reimbursed by the French tax authorities.

Note 24: Salaries

	31/12/2025	31/12/2024
Salaries	5 985 776 €	5 861 386 €

Allowances	355 820 €	231 783 €
Total	6 936 793 €	6 663 533 €

Salaries and social charges accounted for approximately 51% of the total of expenses (vs. 50% in 2024). The increase of staff expenses is primarily due to the application of the INSEE (French National Institute of Statistics and Economic Studies) consumer price index (1.59 %) to the salary point for staff in the Headquarters.

Staff employment conditions are outlined in the Staff Regulations and Staff Rules adopted by the World Assembly of Delegates on 27 May 1983 and amended by Resolution No. 13 on 31 May 2013.

A quality bonus is paid at the end of each calendar year, based on evaluation criteria such as the level of responsibility, competencies, service quality, personal commitment, etc. This bonus may be adjusted (between 80% to 120% of the base amount) further to a proposal from the staff member's immediate Manager and a decision by the Director General.

A responsibility bonus is also paid annually to the Deputy Directors General, the Director of Administration, the Heads of Department, and their Deputies.

Allowances include home leave, installation expenses for newly recruited staff, as costs related to staff returning home upon termination of their employment contracts.

Other social charges	366 907 €	304 496 €
Total	3 523 112 €	3 394 192 €

Under the terms of the social security agreement signed with the French Republic, staff members at WOAH Headquarters are subject to the French social security legislation regarding the following categories:

- Sickness – maternity – death
- Invalidity
- Old age
- Work-related accidents

Concerning the supplementary pension, WOAH staff members contribute to the Autonomous Retirement Pension Fund for the Headquarters staff.

Exchange gains	1 761 €	15 666 €
Total	60 563 €	153 179 €

All interest related to Reserve Fund investments is recorded under assets and not as financial revenue, in order to preserve the Reserve Fund's assets. As a result, the Reserve Fund earned € 64 K in interest. Potential investment gains are recorded under assets rather than as financial revenue.

Exchange gains primarily result from fluctuations in the exchange rate between US Dollar and Euro.

Regular Budget

Note 29: Financial expenses

	31/12/2025	31/12/2024
Interest on loans	38 169 €	44 761 €
Exchange losses	33 641 €	2 879 €
Total	71 810 €	47 640 €

Note 30: Balance from ordinary activities

The balance from ordinary activities of the Regular Budget stands at € 218 K, indicating that the ordinary revenue (including statutory and extraordinary contributions, other operating revenue such as income received from the evaluation of Members' disease status application dossiers, and World Fund overheads) was sufficient to cover operating expenses in 2025.

Note 31: Extraordinary revenue

	31/12/2025	31/12/2024
Proceeds of disposal of assets	0 €	1 581 €
Recovery of subsidies	0 €	32 578 €
Total	0 €	34 159 €

Subsidies received by WOAAH for the purchase of the building located at 14 rue de Prony are recognised over the same period as the depreciation of the building.

The reform of the French General Chart of Accounts, effective from 1 January 2025, modernizes the accounting rules for financial periods beginning on or after that date. In particular, it led to the elimination of certain accounts previously classified under exceptional income.

Note 32: Extraordinary expenses

	31/12/2025	31/12/2024
Sundry expenses	0 €	93 €
Total	0 €	93 €

Note 33: Balance from the Reserve Fund

The Reserve Fund has been integrated into the Regular Budget account since 1 January 2016.

Following the Regular Budget result at the end of 2024, a sum of € 200 K was transferred into the Reserve Fund in 2025.

Expenses and income related to the Reserve Fund are recorded in a balance sheet account to maintain its integrity. Expenses include banking fees (€ 80). Income consists of bank interest (€ 65 K) and an unrealised gain on investment products estimated at € 24 K at the end of the year. As a result, the Reserve Fund's balance at 31 December 2025 was € 88 K.

Note 34: Variations in receivables

The decrease in receivables of € 2.9 M corresponds to the variation in receivables between 31 December 2024 and 31 December 2025. It mainly comprises the variation in receivables between the Regular Budget and WOAAH's other entities (- € 1.9 M), the variation in VAT that should be reimbursed to WOAAH (€ 1 M) and the variation in contributions called for but not paid by Members (- € 1.2 M).

Note 35: Variation in payables

The decrease in payables of € 1.7 M corresponds to the variation in payables between 31 December 2024 and 31 December 2025. It mainly comprises the variation in payables between the Regular Budget and WOAH's other entities (- € 1.3 M), the variation of statutory and extraordinary contributions called for with respect to the year N+1 and paid in year N (- € 0.8 M), the variation in accrued liabilities (- € 0.5 M), the variation in payables to the French social entities (€ 0.1 M) and the variation in payables to suppliers not paid at 31 December 2025 (€ 0.8 M).

2. World Animal Health and Welfare Fund

110. The World Animal Health and Welfare Fund (World Fund) is a multi-donor trust fund through which the Organisation collects and manages voluntary contributions from Members (in addition to their statutory contributions) as well as from intergovernmental organisations, philanthropic foundations, the private sector and other sources. Created by a resolution voted by the Membership in 2004, the legal basis of the World Fund has formed part of the Basic Texts since 2011.
111. Through voluntary contributions from resource partners to the World Fund, WOAHA supports the development and implementation of programs and projects which are essential to fulfilling its mandate and achieving the objectives of its Strategic Plans.
112. The voluntary contributions received through the World Fund complement the statutory and extraordinary contributions received from Members (Regular Budget). The World Fund is a specific account (Budget) set up in application of article 7.3 of the Financial Regulations and is managed in accordance with the administrative and financial rules of the Organisation.
113. The World Fund is a multi-year special account. The World Fund accounts are kept in accordance with the principle that the final result will be zero (neither a surplus nor a deficit); consequently, annual variances between income and expenses are recognised in the accounts as deferred income variation.
114. Since 1 January 2013, the World Fund accounts are kept in accordance with an accrual accounting system.

Notes

Note 1: Cash on hand

	31/12/2025	31/12/2024
Deposits with banks - unrestricted - euros	29 375 697 €	43 180 411 €
Deposits with banks - unrestricted - other currencies	3 057 815 €	4 795 752 €
Total	32 433 512 €	47 976 163 €

Bank deposits in US Dollars and in GBP are converted to Euros using the exchange rate at the end of the year.

The amount as of 31 December 2025 is lower, as part of the funds were placed in term deposit accounts. However, the level of available funds remains high. Additional investments will be made at the beginning of 2026.

Note 2: Deposits with banks and cash equivalent, restricted

	31/12/2025	31/12/2024
Short-term bank deposits and others	17 174 752 €	8 792 785 €
Total	17 174 752 €	8 792 785 €

Short-term deposits are an attractive investment option because the duration is flexible. This flexibility was an advantage for the grants signed with resource partners.

Note 3: Operating receivables

	31/12/2025	31/12/2024
Receivables on other WOAHA entities	251 372 €	219 897 €
Total	251 372 €	219 897 €

The receivables on other WOAHA entities correspond to amounts that the other entities are required to pay back to the World Fund due to the actual cost being lower than the budgeted amount (advances made by the World Fund).

Note 4: Other receivables

	31/12/2025	31/12/2024
VAT deductible	154 872 €	267 057 €
Other receivables	41 341 €	3 820 €
Donors	53 007 987 €	66 311 088 €
Total	53 204 200 €	66 581 965 €

The "donors" line represents the multi-year contributions yet to be received under contracts already signed with resources partners.

Note 5: Prepayments

	31/12/2025	31/12/2024
Prepayments	0 €	39 044 €
Total	0 €	39 044 €

Note 6: Sundry payables

	31/12/2025	31/12/2024
Deferred income	89 422 415 €	109 135 235 €
Twinning contracts	564 333 €	1 368 182 €
Accrued liabilities	641 086 €	1 365 774 €
Other	8 425 €	154 367 €
Total	90 636 260 €	112 023 558 €

The decrease in current liabilities as at 31 December 2025 is mainly attributable to the reduction in other creditors, which consist of deferred income (€ 89.42 M), amounts related to twinning project contracts (€ 0.56 M), accrued liabilities (€ 0.64 M) and other miscellaneous creditors (€ 8 K).

Deferred income corresponds to subsidies signed (including funds received and funds not yet received) but not yet disbursed as at 31 December 2025.

Expenses incurred in 2025 and not yet invoiced as at 31 December 2025 have been recognised in the accounts as accrued liabilities.

Note 7: Operating payables

	31/12/2025	31/12/2024
Debts to other WOAHA entities	8 918 381 €	5 944 970 €
Providers	3 217 061 €	5 233 066 €
Experts	292 135 €	408 259 €
Total	12 427 577 €	11 586 296 €

The item "Debts to other WOAHA entities" (€ 8.9 M) corresponds to amounts advanced to the World Fund by the Regular Budget and Regional and Sub-Regional Representations. The World Fund has reimbursed these different entities in 2026.

The item "providers" (€ 3.2 M) corresponds principally to sub-grants signed with partners.

Note 8: Voluntary Contributions

	31/12/2025	31/12/2024
Subsidies	30 429 126 €	22 364 209 €
Deferred income variation	(173 672) €	(563 268) €
Total	30 255 454 €	21 800 941 €

As a special account, the Organisation adopts an accounting rule that the final result of the World Fund will be zero at 31 December each year. Through the accrual system applied, the amount indicated in the "subsidies" account corresponds to the part of the subsidies corresponding to the year 2025 (rather than payments actually received).

The variation in voluntary contributions presented in the Statement of Financial Performance mainly reflects the variation in annual expenses. It comprises the subsidies for the 2025 financial year (€ 30.43 M) and deferred income variation (- € 174 K). The deferred income variation corresponds to contributions signed in 2025 but not disbursed until subsequent financial years; this method of accounting is related to the fact that the World Fund generates an annual result equal to zero.

Note 9: Other operating revenues

	31/12/2025	31/12/2024
Other operating revenues	149 208 €	53 €
Total	149 208 €	53 €

Note 10: Purchases of supplies

	31/12/2025	31/12/2024
Consumables and supplies	119 251 €	960 €
Total	119 251 €	960 €

Note 11: Other external services

	31/12/2025	31/12/2024
External services	8 923 680 €	2 807 904 €
Overheads - WOAH headquarters	1 742 442 €	1 955 535 €

Maintenance and repairs	0 €	0 €
Mission expenses	1 687 987 €	1 116 954 €
Reception expenses	163 691 €	28 180 €
Bank fees	13 125 €	13 798 €
Total	12 573 331 €	5 931 430 €

The overheads received by the Regular Budget totalled € 1.7 M as the amount recognised in the World Fund accounts.

Note 12: Personnel costs and social charges

	31/12/2025	31/12/2024
Salaries	3 141 716 €	3 453 851 €
Bonuses	238 869 €	218 689 €
Allowances	221 312 €	318 681 €
Social charges	1 884 481 €	1 762 486 €
Total	5 486 378 €	5 753 707 €

Salaries and social charges (€ 5.49 M) together accounted for 18% of operating expenses (compared to 25% in 2024 and 20% in 2023).

Note 13: Other operating expenses

	31/12/2025	31/12/2024
Other WOAH entities	11 795 123 €	10 387 951 €
Sub-grants	503 661 €	1 395 697 €
Total	12 298 784 €	11 783 649 €

Other operating expenses correspond to monies paid from World Fund accounts to the Regional and Sub-Regional Representations. These monies enable the Representation to put into place activities in line with work plans funded through grants.

Note 14: Total operating expenses

Total operating expenses (€ 30.48 M) increased in 2025 (+30 %) compared to 2024. Operating expenses mainly comprised the following three major items: other external services (see Note 11), personnel costs (see Note 12) and other operating expenses (see Note 13).

These operating and financial expenses were for various activities provided for in the contracts signed with donors. The following table presents the distribution of expenses by donor.

Exchange gains	166 033 €	387 526 €
Total	982 681 €	1 806 518 €

'Potential' exchange gains comprise the valuation of bank accounts in other currencies using the exchange rate at the end of the year. Indeed, the variation in the exchange rate between the US\$ and the EUR (1 US\$ = 0.96256 € at 31/12/2024 and 1 US\$ = 0.85106 € at 31/12/2025) and the level of cash holdings in US\$ (see Notes 1 and 2) resulted in a substantial theoretical ('potential') exchange gain.

Note 16: Financial expenses

	31/12/2025	31/12/2024
Exchange losses	909 598 €	137 767 €
Total	909 598 €	137 767 €

'Potential' exchange losses correspond to virtual exchange losses calculated during the valuation of bank accounts in foreign currencies at the rate of exchange at the end of the year.

Note 17: Cash Flow Statement for year ended 31/12/2025

It should be noted that there were only cash flows from operational activities and that there were neither investing nor financing activities.

An increase in cash and cash equivalents was recorded (€ 7.16 M) at 31/12/2025:

- The increase in receivables of € 13.27 M corresponds principally to variations in the closing balances of contracts for contributions signed with donors and therefore to the amount received on these contracts (see Note 4).
- The decrease in payables of € 20.43 M corresponds principally to:
 - ✓ deferred income, corresponding to subsidies signed but not yet disbursed at 31/12/2025 (decrease of € 20 M, see note 6),
 - ✓ twinning contracts not yet paid (decrease of € 0.8 M, see note 6),
 - ✓ accrued liabilities, corresponding mainly to a sub-grant not yet paid at 31/12/2025 (decrease of € 0.7 M, see note 6),
 - ✓ debts to providers and experts (decrease of € 2 M, see note 7),
 - ✓ debts to other entities (increase of € 3 M, see note 7).

3. The Regional and Sub-Regional Representations

115. WOAHA has established Regional Representations for the following regions: Africa, the Americas, Asia and the Pacific, Europe, the Middle East.
116. The purpose of these Representations is to provide WOAHA Members with services that are adapted to the region concerned, so that they can strengthen animal disease surveillance and control in their region. Information on the activities conducted by the Representation is provided in the Director General's Report on 2025 WOAHA Activities (93GS/Adm-05).
117. In application of Resolution No. 6 adopted on 26 May 2006, a financial mechanism for the Regional Representations was set up, under which 8.33% of the statutory contribution of the countries in the region is allocated to the activities of the Regional Representation.
118. The share of statutory contributions allocated to the Representations concerned corresponds to the theoretical amount of contributions assessed to Members. Arrears by region are therefore reflected as a risk borne by the Regular Budget.
119. Since 1 January 2013, WOAHA has had an accrual-based accounting system.

120. The four Representations in the Africa region are:

Regional Representation for Africa - Mali

WOAH Regional Representation for Africa was created under the terms of an agreement signed on 17 October 2000 with the Government of the Republic of Mali. It has its headquarters in Bamako.

A new agreement, signed on 28 May 2013, regulates the installation and functioning of a WOAHA Regional Representation for Africa, specifying the rights and obligations of the parties, the privileges and immunities to be accorded by the Government of the Republic of Mali to WOAHA, the Representatives of Members, their experts and their public officials in the performance of their mission and their duties on the territory of the Republic of Mali.

The Representation has its headquarters in premises made available free of charge by the Republic of Mali.

Sub-Regional Representation for Southern Africa - Botswana

WOAH Sub-Regional Representation for Southern Africa was created in May 2006 under the terms of an agreement between the World Organisation for Animal Health and the Government of the Republic of Botswana. It has its headquarters in Gaborone.

This Representation was set up to cover the 15 WOAHA Members in the sub-region. Its situation enables it to communicate with the regional economic community, the Southern African Development Community (SADC), which also has its headquarters in Gaborone.

The Representation has its headquarters, free of charge, in premises of the Ministry of Agriculture.

Sub-Regional Representation for North Africa - Tunisia

WOAH Sub-Regional Representation for North Africa was created on 13 January 2009 under the terms of an agreement between the World Organisation for Animal Health and the Tunisian Government.

This Sub-Regional Representation was set up to cover the five WOAHA Members in the region (Algeria, Libya, Morocco, Mauritania, Tunisia) in liaison with WOAHA Regional Representation for Africa, based in Bamako (Mali), and the Arab Maghreb Union (Union du Maghreb Arabe: UMA), which has its headquarters in Rabat (Morocco). For certain activities linked to GF-TADs, the RAHC and REMESA, Egypt is also associated.

The Sub-Regional Representation has its headquarters in a building made available free of charge by the Ministry of Agriculture of Tunisia.

Since its establishment, the Representation had been financially supported by a contribution from the Government of Italy. As this contribution expired on 31 December 2025, the Regular Budget provided a contribution to cover the Representation's operating expenses for 2026.

Sub-Regional Representation for Eastern Africa and the Horn of Africa - Kenya

WOAH Sub-Regional Representation for Eastern Africa and the Horn of Africa was established in Nairobi (Kenya) following an agreement signed in 2009 between WOAHA and the Government of Kenya.

This Sub-Regional Representation was established to cover the WOAHA Members of the region in liaison with WOAHA Regional Representation for Africa, based in Bamako (Mali), and also, with regard to the Seychelles and Tanzania, the Sub-Regional Representation for Southern Africa, based in Gaborone (Botswana): Burundi, Comoros, Djibouti, Ethiopia, Eritrea, Kenya, Uganda, Rwanda, Seychelles, Somalia, Sudan, South Sudan and Tanzania.

It has its headquarters in premises for which the rent is paid by Kenya.

Regional and Sub-Regional Representations

The Government of Kenya pays a specific financial contribution to WOAAH to partially support the functioning of the Representation.

121. The table below shows the revenues and expenses of all the Representations in the Africa region:

122. The two Representations in the Americas region are:

Regional Representation for the Americas - Argentina

WOAH Regional Representation for the Americas was officially established in Buenos Aires (Argentina) following an agreement signed on 24 November 2003 between WOAAH and the Government of the Republic of Argentina.

The Government of the Republic of Argentina pays a specific financial contribution to WOAAH to ensure the functioning of the Representation in Buenos Aires.

The Representation has its headquarters in premises made available free of charge by the Government of the Republic of Argentina.

Sub-Regional Representation for Central America - Panama

WOAH Sub-Regional Representation for Central America was established in Panama City (Panama) following an agreement signed on 28 November 2006 between WOAAH and the Government of the Republic of Panama.

The Government of Panama makes a specific financial contribution to WOAAH to ensure the functioning of the Representation and pays the rent on its premises.

124. The two Representations in the Asia region are:

Regional Representation for Asia and the Pacific - Japan

The first WOAHA regional office in Asia was opened in Tokyo in 1971.

In 1990, the WOAHA World Assembly decided to strengthen this office. An agreement regarding the Privileges and Immunities of the WOAHA Regional Representation for Asia and the Pacific was signed on 20 December 2019 between the Government of Japan and WOAHA.

The Government of Japan has undertaken to pay a specific financial contribution to WOAHA to ensure the functioning of the Representation. Since 1 August 2013, all of Japan's voluntary contributions have been managed through the World Fund.

Sub-Regional Representation for South-East Asia - Thailand

The Regional Coordination Unit (RCU) for the South-East Asia Foot and Mouth Disease Campaign, the predecessor of WOAAH Sub-Regional Representation for South-East Asia, was set up in Bangkok (Thailand) in 1997 to manage the foot and mouth disease control programme. The RCU was converted to the Sub-Regional Representation in 2009 in order to respond to increased responsibilities.

It receives voluntary contributions from Members in the region to support the SEACMFD programme.

It has its headquarters in premises made available free of charge by the Government of Thailand.

126. The three Representations in the Europe region are:

Regional Representation in Moscow

WOAH Regional Representation in Moscow, Russia, was created on 6 March 2013. Under the terms of the signed agreement, the Russian Federation pays a specific voluntary contribution to WOAHA to ensure the functioning of the Representation in Moscow.

Furthermore, an agreement was signed in 2017 between the Ministry of Finance of Russia and WOAHA, under the terms of which the Ministry of Finance pays WOAHA an amount to cover the rent on the premises occupied by the Regional Representation in Moscow.

Sub-Regional Representation in Brussels

WOAH Sub-Regional Representation in Brussels (Belgium) was created on 1 January 2007.

At the start of 2013, the Representation moved into premises made available free of charge by the Belgian Federal Agency for the Safety of the Food Chain (AFSCA).

Sub-Regional Representation for Central Asia - Kazakhstan

WOAH Sub-Regional Coordination Unit for foot and mouth disease was created in Astana (Kazakhstan) on 15 October 2013.

In line with Resolution No. 15 adopted by the World Assembly of Delegates in May 2017, the Coordination Unit has become a WOAHA Sub-Regional Representation for Central Asia.

The Government of the Republic of Kazakhstan has undertaken to pay a specific financial contribution to WOAHA to ensure the functioning of the Sub-Regional Representation and to make available the premises for this Representation.

The Sub-Regional Representation has its headquarters in premises made available free of charge by the Ministry of Agriculture.

128. The two Representations in the Middle-East region are:

Regional Representation for the Middle East - Lebanon

WOAH Regional Representation for the Middle East, which has its headquarters in Beirut, was created under the terms of an agreement signed on 17 December 1998 between WOAH and the Government of the Republic of Lebanon. The agreement was renewed on 5 August 2004.

The Government of Lebanon makes a specific financial contribution to WOAH to ensure the functioning of the Representation. However this contribution has not been paid since 2018.

The Representation has its headquarters in premises made available free of charge by the Ministry of Agriculture.

Sub-Regional Representation Office in Abu Dhabi – United Arab Emirates

On the occasion of the 15th Conference of the WOAH Regional Commission for the Middle East (November 2019), WOAH officially opened a Sub-Regional Representation in Abu Dhabi. This new office will strengthen cooperation with the Members of the region (Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, United Arab Emirates and Yemen). Thanks to the financial support of the authorities of the United Arab Emirates, the work programme of the Representation will focus on the following major issues: control of transboundary diseases and in particular some

Regional and Sub-Regional Representations

specific zoonoses and camelid diseases, animal welfare, and the application of WOAH standards in trade.

The Representation has its headquarters in premises made available free of charge by Abu Dhabi Agriculture and Food Safety Authority (ADAFSA).

Accrued payables include December allowances as well as reimbursement of contributions relating to staff members who left WOAH in 2025 that will be paid in 2026.

Note 5: Operating payables

	31/12/2025	31/12/2024
Regular Budget	20 279 €	12 135 €
Total	20 279 €	12 135 €

Operating payables are debts to WOAH Headquarters and are reimbursed by the Pension Fund in 2026.

Note 6: Other operating revenues

	31/12/2025	31/12/2024
Contributions - WOAH	1 514 490 €	1 471 715 €
Contributions - staff	504 410 €	484 673 €
Total	2 018 900 €	1 956 388 €

Other operating revenues correspond to contributions to the Pension Fund.

Contributions represent a percentage of the salary. The amount and the distribution of contributions are as follows:

- 6% of staff members' gross salary, paid by the staff members;
- 18% of staff members' gross salary, paid by WOAH.

Note 7: Other external services

	31/12/2025	31/12/2024

Reimbursement of contributions	277 854 €	161 796 €
Total	1 107 879 €	811 585 €

Pensions paid to the 34 retired employees (or their dependents) totalled € 830 K. When staff members reach the legal age of retirement and leave their employment at WOAH, they receive a supplementary retirement pension, which, for those so entitled, is in addition to the pension paid by the French national old-age pension fund (under the terms of the Social Security agreement of 12/04/1984). The cumulated total of these two amounts represents a proportion of the final salary and varies according to the length of service.

In the event of the early departure of a staff member due to the non-renewal or termination of the contract of employment, whether by WOAH or the staff member concerned, the staff member can, on request, be reimbursed 30% of the cumulated amount of contributions paid by WOAH and by the staff member during his or her period of service. This reimbursement is automatic if the staff member has completed less than 3 years' service. In 2025, reimbursements paid to 22 staff members totalled € 278 K.

Note 9: Financial revenue

	31/12/2025	31/12/2024

VII. Certificate by the Chartered Accountant

In accordance with the terms of our contract, we have carried out an assignment to present the financial statements (*'mission de présentation des comptes'*) of the **World Organisation for Animal Health (WOAH)** for the financial year from 1 January 2025 to 31 December 2025, which are characterised by the following data:

Balance-sheet total:	€ 125 083 971
Operating income:	€ 52 224 960
Net income:	€ 1 188 400

Our assignment was conducted in accordance with the professional standard of the *Conseil Supérieur de l'Ordre des Experts-Comptables* (Higher Council of the Order of Qualified Accountants) applicable to a *'mission de présentation des comptes'*, which is neither an audit nor a limited examination of the accounts.

Based on our work, we did not identify any items likely to call into question the consistency and plausibility of the annual statements as a whole, as annexed to this attestation.
