

## Member statutory contributions to WOAAH for the 2027 Financial Year

### CONSIDERING

1. Article 11 of the Organic Statutes and Article 14 of the Organic Rules of WOAAH,
2. Resolution No. 8 dated 1 June 2001 related to contributions by the Least Developed Countries (LDC),
3. Resolution No. 11 of 30 May 2014 creating two categories of extraordinary contributions,
4. Resolution No. 15 of 24 May 2018 related to taking into account when calculating the annual contributions of WOAAH Members for the following year, the annual consumer price index ("OECD-Total" CPI) for the previous year,
5. The annual evolution of the statutory contribution categories that led to exceeding the threshold applicable to Category B extraordinary contributions,
6. The 2025 "OECD-Total" CPI, which stands at 4.1% shall be used to calculate the contributions for 2027. This index is based on the average of eleven monthly indices for 2025 (January to September, November and December) as the data for October 2025 and the annual average for 2025 are not available. This is due to the absence of CPI data for the United States for October, as it has not been released by the US Bureau of Labor Statistics (BLS) following the government shutdown.
