

**Dr Jorge Torelli**

Since 1986, Dr Jorge Torelli has been working in Argentina's refrigeration industry, and has built up broad-ranging experience of all processes. He now occupies the post of General Manager of Industrias Frigoríficas Mattievich SA, which packs beef and pork for the domestic and export markets, and also hamburgers and other by-products. Annual production, managed by Dr Torelli, amounts to 500,000 steers and 120,000 pigs and 216,000 tonnes of meat and by-products, 2,400 tonnes of cold meats, 4,800 tonnes of hamburgers and 24 million litres of dry blood.
