

OIE Reference Laboratory Reports Activities

Activities in 2021

This report has been submitted : 2021-12-29 20:27:32

Name of disease (or topic) for which you are a designated OIE Reference Laboratory:	Classical swine fever
Address of laboratory:	1015, Arlington Street Winnipeg, Manitoba R3E 3M4 CANADA
Tel.:	+1-204 789 2013
Fax:	+1-204 789 2038
E-mail address:	aruna.ambagala@inspection.gc.ca
Website:	https://inspection.canada.ca/science-and-research/our-laboratories/ncfad-winnipeg/eng/1549576575939/1549576643836
Name (including Title) of Head of Laboratory (Responsible Official):	Dr. Kathleen Hooper-McGrevy, Acting Executive Director CFIA-National Centre for Foreign Animal Disease, 1015 Arlington Street, Winnipeg, MB R3E 3M4 Canada
Name (including Title and Position) of OIE Reference Expert:	Dr. Aruna Ambagala, Head-Mammalian Diseases Unit, OIE Reference Laboratory for CSF CFIA-National Centre for Foreign Animal Disease, 1015 Arlington Street, Winnipeg, MB R3E 3M4, Canada
Which of the following defines your laboratory? Check all that apply:	Governmental

ToR 1: To use, promote and disseminate diagnostic methods validated according to OIE Standards

1. Did your laboratory perform diagnostic tests for the specified disease/topic for purposes such as disease diagnosis, screening of animals for export, surveillance, etc.? (Not for quality control, proficiency testing or staff training)

Yes

Diagnostic Test	Indicated in OIE Manual (Yes/No)	Total number of test performed last year	
		Nationally	Internationally
Indirect diagnostic tests		Nationally	Internationally
bELISA	Yes	10,824	67
NPLA	Yes	10	67
Direct diagnostic tests		Nationally	Internationally
Real Time RT-PCR	Yes	105	7
Conventional RT-PCR	Yes		7
Virus Isolation	Yes		7

ToR 2: To develop reference material in accordance with OIE requirements, and implement and promote the application of OIE Standards. To store and distribute to national laboratories biological reference products and any other reagents used in the diagnosis and control of the designated pathogens or disease.

2. Did your laboratory produce or supply imported standard reference reagents officially recognised by the OIE?

No

3. Did your laboratory supply standard reference reagents (non OIE-approved) and/or other diagnostic reagents to OIE Member Countries?

Yes

Type of reagent available	Related diagnostic test	Produced/ provide	Amount supplied nationally (ml, mg)	Amount supplied internationally (ml, mg)	No. of recipient OIE Member Countries	Region of recipients
Concentrated RRT-PCR positive controls	Real-time and conventional RT-PCR	Provided	0	0.2 ml	1	<input type="checkbox"/> Africa <input checked="" type="checkbox"/> Americas <input type="checkbox"/> Asia and Pacific <input type="checkbox"/> Europe <input type="checkbox"/> Middle East
Diluted RRT-PCR positive controls	Real-time Rt-PCR	Provided	1.5 ml		1	<input type="checkbox"/> Africa <input checked="" type="checkbox"/> Americas <input type="checkbox"/> Asia and Pacific <input type="checkbox"/> Europe <input type="checkbox"/> Middle East

4. Did your laboratory produce vaccines?

No

5. Did your laboratory supply vaccines to OIE Member Countries?

No

ToR 3: To develop, standardise and validate, according to OIE Standards, new procedures for diagnosis and control of the designated pathogens or diseases

6. Did your laboratory develop new diagnostic methods validated according to OIE Standards for the designated pathogen or disease?

Yes

7. Did your laboratory develop new vaccines according to OIE Standards for the designated pathogen or disease?

No

Name of the new test or diagnostic method or vaccine developed	Description and References (Publication, website, etc.)
Development of a blocking ELISA for detection of antibodies to CSFV in porcine serum	Final validation on-going

ToR 4: To provide diagnostic testing facilities, and, where appropriate, scientific and technical advice on disease control measures to OIE Member Countries

8. Did your laboratory carry out diagnostic testing for other OIE Member Countries?

No

9. Did your laboratory provide expert advice in technical consultancies on the request of an OIE Member Country?

Yes

Name of the OIE Member Country receiving a technical consultancy	Purpose	How the advice was provided
GUATEMALA	Evaluate current serological, virological and molecular diagnostic assays for CSF at the LARRSA	OIE Twinning Project - via emails, phone calls and Skype
GHANA	To improve serological and molecular diagnostics	Via emails and phone calls
CUBA	To improve screening and early detection of swine diseases	Via emails and phone calls
VIETNAM	Molecular characterization of CSFV isolates from Vietnam	Via emails, phone calls and Skype
PERU	Marker Vaccines & Diagnostic Systems	Presentation at the Peru CSF Compartmentalization Project via Zoom
BRAZIL	Characterization of CSFV isolates from Brazil	Via emails and Skype
COSTA RICA	Review serological and molecular diagnostics	Via emails and Skype
JAPAN	Sharing CSF real-time RT-PCR protocol	Via emails

ToR 5: To carry out and/or coordinate scientific and technical studies in collaboration with other laboratories, centres or organisations

10. Did your laboratory participate in international scientific studies in collaboration with OIE Member Countries other than the own?

Yes

Title of the study	Duration	Purpose of the study	Partners (Institutions)	OIE Member Countries involved other than your country
Enhancing diagnostic capacity for CSF in Central and South America	ongoing	To improve serological, virological and molecular diagnostics at the LARRSA, Guatemala	Laboratorio Referencia Regional de Sanidad Animal (LARRSA)	GUATEMALA

ToR 6: To collect, process, analyse, publish and disseminate epizootiological data relevant to the designated pathogens or diseases

11. Did your Laboratory collect epizootiological data relevant to international disease control?

No

If the answer is no, please provide a brief explanation of the situation:
-

12. Did your laboratory disseminate epizootiological data that had been processed and analysed?

No

If the answer is no, please provide a brief explanation of the situation:
-

13. What method of dissemination of information is most often used by your laboratory? (Indicate in the appropriate box the number by category)

a) Articles published in peer-reviewed journals: 0

-

b) International conferences: 0

-

c) National conferences: 0

-

d) Other:

(Provide website address or link to appropriate information) 0

-

ToR 7: To provide scientific and technical training for personnel from OIE Member Countries**To recommend the prescribed and alternative tests or vaccines as OIE Standards**

14. Did your laboratory provide scientific and technical training to laboratory personnel from other OIE Member Countries?

Yes

- a) Technical visits: 0
- b) Seminars: 1
- c) Hands-on training courses: 0
- d) Internships (>1 month): 0

Type of technical training provided (a, b, c or d)	Country of origin of the expert(s) provided with training	No. participants from the corresponding country
NPLA	Guatemala	2

ToR 8: To maintain a system of quality assurance, biosafety and biosecurity relevant for the pathogen and the disease concerned

15. Does your laboratory have a Quality Management System?

Yes

Quality management system adopted	Certificate scan (PDF, JPG, PNG format)
ISO/IEC 17025:2005 (CAN-P-4E)	ASB_CTF_15579-CFIA-Certificate_v1_2021-04-27.pdf

16. Is your quality management system accredited?

Yes

Test for which your laboratory is accredited	Accreditation body
ELISA	Standards Council of Canada
NPLA	Standards Council of Canada
Real Time RT PCR	Standards Council of Canada
Virus Isolation/ IPA	Standards Council of Canada
Sequencing	Standards Council of Canada

17. Does your laboratory maintain a "biorisk management system" for the pathogen and the disease concerned?

Yes

(See *Manual of Diagnostic Tests and Vaccines for Terrestrial Animals, Chapter 1.1.4*)

ToR 9: To organise and participate in scientific meetings on behalf of the OIE

18. Did your laboratory organise scientific meetings on behalf of the OIE?

No

19. Did your laboratory participate in scientific meetings on behalf of the OIE?

No

ToR 10: To establish and maintain a network with other OIE Reference Laboratories designated for the same pathogen or disease and organise regular inter-laboratory proficiency testing to ensure comparability of results

20. Did your laboratory exchange information with other OIE Reference Laboratories designated for the same pathogen or disease?

Yes

21. Was your laboratory involved in maintaining a network with OIE Reference Laboratories designated for the same pathogen or disease by organising or participating in proficiency tests?

Yes

Purpose of the proficiency tests: ¹	Role of your Reference Laboratory (organiser/participant)	No. participants	Participating OIE Ref. Labs/ organising OIE Ref. Lab.
Interlaboratory Test Comparison	Participant	39	EU Reference Laboratory for CSF, Hannover, Germany

¹ validation of a diagnostic protocol: specify the test; quality control of vaccines: specify the vaccine type, etc.

22. Did your laboratory collaborate with other OIE Reference Laboratories for the same disease on scientific research projects for the diagnosis or control of the pathogen of interest?

No

ToR 11: To organise inter-laboratory proficiency testing with laboratories other than OIE Reference Laboratories for the same pathogens and diseases to ensure equivalence of results

23. Did your laboratory organise or participate in inter-laboratory proficiency tests with laboratories other than OIE Reference Laboratories for the same disease?

Yes

Note: See Interlaboratory test comparisons in: Laboratory Proficiency Testing at: <http://www.oie.int/en/our-scientific-expertise/reference-laboratories/proficiency-testing> see point 1.3

Purpose for inter-laboratory test comparisons ¹	No. participating laboratories	Region(s) of participating OIE Member Countries
Proficiency Testing under the ongoing OIE Twinning Project with LARRSA, Guatemala	5	<input type="checkbox"/> Africa <input checked="" type="checkbox"/> Americas <input type="checkbox"/> Asia and Pacific <input type="checkbox"/> Europe <input type="checkbox"/> Middle East

ToR 12: To place expert consultants at the disposal of the OIE

24. Did your laboratory place expert consultants at the disposal of the OIE?

No

25. Additional comments regarding your report:
